

In the Specification

Please amend the specification as follows:

Page 1, first paragraph:

The invention relates to a method ~~according to the preamble of the appended independent claim 1~~ for cardiac analysis, which method comprises steps for acquiring an ECG-signal, detecting at least one wave of the ECG-signal and calculating parameter values of said wave. The invention also relates to a cardiac analysis system ~~according to the preamble of the appended independent claim 19~~ for implementing the aforementioned method as well as to a computer program product ~~according to the preamble of the appended independent claim 32~~.
